FANCY GADGET — Third graders from McKinley School accepted with enthusiasm an invitation from Fire Chief Joseph Lodi to visit the firehouses last week in connection with the observance of Fire Prevention Week. Above: The youngsters swarm over and under the new fire truck while receiving advice on how to combat fires. The fire department conducted a citywide drive to educate schoolchildren, service, and other organizations in the danger of fire and how to prevent it.

## Commercial Wing Bids Narrowed at Sequoia

Bids on the contract to construct the new Sequoia High School commercial wing were narrowed down to three by trustees last week, and a conference with the district attorney's office was called to help decide the issue.

Low bid was submitted by Contractor Julian N. Basin of Menlo Park. His figure was $104,585 and $37 per cubic yard for extra concrete.

Only $135 higher was the bid submitted by James H. Arthur of Arthur Bros. The San Mateo firm bid $104,700 and called for concrete at $38.50 per cu. yd.

**Arthur said he would protest Basin's bid if the contract is awarded the Menlo Park firm. The protest, he indicated, will be based on the claim that Basin sent a bid bond instead of a certified check with his bid as called for in the legal notice.**

Williams and Burrows of San Bruno were third lowest with a bid of $105,870 and concrete fixed at $48 per cu. yd.

The trustees last meeting asked the district attorney's office for a ruling on legality of bid bonds, though the legal notice stated that certified checks were to be submitted.

The trustees had not received a ruling from the county legal department, but the decision is expected within a few days.

Architect George J. Paulus of Blanchard, Maher & Paulus, suggested that the board submit the three low bids to the district attorney before any decision is made.

Of the dozen bidders all but four complied with the provision that certified checks accompany bids.

Other bidders were Joseph Bettancourt, San Bruno; H. J. Schneideskamp, San Francisco; O. C. Moroney, San Mateo; S & Q Construction Co., San Francisco; Hedahl-Martin Co., Redwood City.

Carrico & Gautier, San Francisco; Cannon Construction Co., Stockton; Cattich Bros. & Stevenson, Redwood City and Peter Sorensen, Redwood City.

High bid was $128,000 and average was about $114,000. The early estimate of cost of the new unit was fixed at close to $150,000.

Pres. Charles P. Burgess said the board was "very well pleased" with the bids and thanked those participating.

**Also on the program last night was preliminary discussion of landscaping at the Menlo Park school now on the architect's drawing boards.**

Trustees authorized Supt. Clyde Ogden and Bus. Mgr. Humphrey J. Lynch to obtain preliminary estimates of work. No action on the problem is expected, however, for several weeks.

The board also tabled final acceptance of the contract with Architect Frank Wynkoop for design of the San Carlos-Belmont high school until tonight's meeting.

NEW POLICEMEN — Five new police officers have been hired by the Redwood City Police Dept. Helping them get acquainted with the city and with their duties is Police Capt. S. E. Douglass, left. The other officers are, left to right, John Heavy, Albert Thomas, MacDonald Craik, Wiliam Goldsmith and George Bold.

## 5000 Pack Sequoia Field For Opener

BY RICHARD KEUSINK

Sequoia High School entertained Redwood City with an impressive show of lights, bands and colorful halftime activities at Friday night's inaugural after dark football game on the Cherokee campus.

More than 5000 persons packed the stands at the high school, and although the Sequoians were beaten by South San Francisco most everyone left the field pleased with the showing of the home team and impressed by the new $27,000 lighting facilities.

**At the opening ceremonies, Clyde Ogden, superintendent of the high school district, thanked the city on behalf of the board for the part Redwood City played in making Sequoia facilities more complete for community enjoyment.**

Ogden expressed the view of the trustees that the field would stand as a community enterprise to serve the citizens of the area with the best recreational playground on the Peninsula.

Morton S. Brewer, who retired last June as a member of the Sequoia Board of Trustees, accepted the lights on behalf of the district, and Keith Cole, present board member, also spoke briefly.

Cole, who is Community Chest drive chairman, urged support of this campaign to aid nine member agencies, and the Sequoia band commemorated the occasion by marching onto the field spelling out "GIVE" the Chest's slogan.

Numerous organizations participated in the opening ceremonies at the school with Boy Scouts, Girl Scouts and other youth organizations taking part in the flag raising activities.

**Sequoia's 70-piece band performed at half time in striking precision. The band was impressive in intricate drills done on the blacked-out turf. The Crowds were able to follow the musician's movements when the bandsmen switched on their lighted caps.**

Sequoia's Principal Thor Krogh said last night's capacity crowd was especially well behaved and the work of Redwood City's police force kept traffic problems down to a minimum.

## Safety Group Airs Bayshore Need, Tosses Out Peterson's $2000 Plan

The San Mateo County Traffic Safety Commission is going to make a survey of Bayshore Hwy., to be used as ammunition by county officials for getting funds for completion of the north end link of the freeway.

The survey was voted this week at a special meeting of the commission. However, the commission decided not to follow County Executive Frederick Peterson's suggestion to ask the board of supervisors for $2000 to make the survey.

The supervisors were notified today that the State Highway Commission would grant them a hearing this Thursday in Sacramento, but the board instructed the clerk to write and ask for a date after Nov. 15. The commission thus would have time to gather its data.

**Taking cognizance of rumors to the effect that Peterson next year may run for supervisor against Edward R. McDonald of Burlingame, the commission announced that it did not want to become a part of any political feud.**

The commission wanted to ask Peterson why he suggested $2000 for the survey, but Peterson, who had been invited, did not attend the meeting.

Four members of the board of supervisors were present, and gave tentative approval to the commission's request. Official okeh was voted by the board at its meeting today.

The commission passed a resolution calling on the supervisors to approve funds for "incidental expenses" which it may incur in making the survey.

The survey is to be made by the commission's staff, enlisting the aid of the California Highway Patrol, the State Chamber of Commerce, the State Division of Highways, the County Planning Commission and the county engineer's office.

It is to be ready by Nov. 15, when a mass meeting on freeway plans will be held in Burlingame.

**Commission Chmn. Francis A. Raymond of Burlingame pointed out that the information sought by the supervisors and Peterson is in San Mateo County, and that a check of records by the commission's secretary can be made with only incidental expense.**

In addition, the commission also is to make a traffic count on the Bayshore Hwy. stretch north of South San Francisco, which is the principal bottleneck for traffic headed into San Francisco.

Raymond presented two resolutions to the commission for consideration. One of them entailed Peterson's request, and called for a traffic survey to be made by "experts."

"The data could be obtained through our own efforts," Raymond pointed out, after reading the two resolutions. "I certainly do not think that it will require the expenditure of $2000."

Cmsr. Alexander Bodi pointed out that the project is in danger of being made a political issue.

"There are reports to the effect that the freeway project is being made the vehicle of Mr. Peterson's political ambitions," Bodi declared.

**"As a member of this commission I feel the project is too important a one and should not be made subservient to anyone's political aims."**

## *Katie Egart, Ben Baltic Tell Friends of Their Betrothal*

Katie Egart and Ben Baltic surprised their many friends recently by announcing their engagement. Ben presented Katie with her ring and later that evening, when several of their friends dropped by Ben's parents' home, they were told the news.

Katie is the daughter of Mr. and Mrs. Frank Egart of Cedar Ave. in San Carlos. She is a graduate of San Francisco schools and is employed in San Francisco. She has three sisters, Frances Egart, who recently graduated from Sequoia High School, Mrs. George Pendergast of San Carlos and Mrs. Jack Eschelman of San Francisco.

Ben, who is the son of Mr. and Mrs. B. G. Baltic of this city, is a graduate of Sequoia High School and is in his junior year at San Jose State College, where he is majoring in industrial arts. He is an army veteran. Janet Baltic is his only sister.

Katie and Ben have made no definite wedding plans.

## Relatives Willed Pinkham Estate

The will of Mrs. Cecilia Pinkham, widow of the late Harry Pinkham, Burlingame real estate man, was filed for probate this week in superior court at Redwood City.

Mrs. Pinkham, who died on Oct. 6, left half of her estate to her daughter, Mrs. Dorothy C. Cody, Burlingame. The estate was estimated to be more than $10,000.

Corrine Falvey, Burlingame, Mrs. Pinkham's granddaughter, was left one-sixth of the estate, and the other third was willed to Harry H. Pinkham, 1420 Jasmine Ave., San Mateo, Mrs. Pinkham's son.

## Mrs. Rosecrans Buys Woodside Property

A deed showing the purchase of 16 acres of property in Woodside by Mrs. Alma Spreckels Rosecrans was on file today in the office of County Recorder Ruth Kirste.

Mrs. Rosecrans purchased the tract from Mr. and Mrs. Richard E. Mussallem for a price reported to be $75,000.

## Youth Talent Show Budget Adopted at Meeting Here

Budget and rules of the Youth Talent Show to be held in Redwood City next January were adopted at this week's meeting of the steering committee.

City councils and local civic organizations between Menlo Park and Belmont will be asked for contributions to help pay show expenses, although they will be assessed no definite amount, Chmn. Luke Argilla explained.

**Rules on classification of entries and exhibits presented at last week's meeting were adopted this week. Four age groups, 17-18, 15-16, 13-14 and 12 were set up. Exhibits were broken into arts, crafts, natural history, science and musical composition groups.**

Any student living in the Sequoia High School Dist. is eligible to enter the show if he qualifies in one of the age brackets, Argilla explained. Applications will be distributed through the schools soon, he added.

Exhibits must be done as part of the school work and must be creative, except in the science group, Argilla said.

The Youth Talent Show will be held Jan. 19-22, 1950, in the Redwood City Recreation Senter.

Another meeting of the steering committee has been called for Thursday night, Oct. 27, 8 o'clock, in Room 25 of Sequoia High School. All local service, fraternal and educational are invited to send representatives, Argilla said.

## Eight New Judges For Sequoia Court

Sequoia High School had eight new judges for its student court today.

Those selected to fill the vacancies were Art Belcher, Karin Johnson, Glen Kovas, Jack Montgomery, Winnifred Mosher, Margie Paccioretti, Don Terhune and Don Welch.

They were chosen by the Student Legislature after the field had been narrowed down to 24 from an original list of 56 applicants.

## Employment Conditions in County Bright, Construction Work Increases, Survey Shows

Number of workers placed in jobs through the San Mateo office of the California Dept. of Employment increased from 275 in August to 375 in September according to the Local Labor Market Bulletin.

Fewer new applications for work were taken by the office during September than in the preceding month. The number of applications for employment on file decreased from 3596 at the end of August to 2885 at the end of September.

**More than 200 firms visited by representatives of the office during the past month reported an increase in workers over the same period a year ago. An increase in construction activity during the past month with fewer layoffs occurring was noted.**

Real estate firms report that business is good but is becoming more competitive. The demand for restaurant workers showed a sharp increase during the latter part of August, due to the opening of the racing season in San Mateo, according to the San Mateo office.

Retail merchants expect to hire additional workers in November to handle business for the next few months and the coming holiday season.

Employment of skilled workers in the construction field looks promising for the near future, the bulletin said. Much new commercial work is planned along with remodeling and renovation of business plants.

There has been a steady growth of new business in the local office area during the past few months, with several new retail stores, food markets and banks opening.

**New claims for unemployment insurance decreased from 694 in August to 428 in September. An analysis of new claims showed there were no large layoffs from any particular plant.**

Of 2885 workers who sought employment during September, 55 per cent were men and 45 per cent women; of the total, 25 per cent were veterans. Approximately 60 per cent were qualified for industrial and service work, while 40 per cent seeking commercial, professional and sales jobs. Although employment conditions are brighter, there is still an ample supply of workers to fill jobs which may develop.

## SC-Belmont Club Hears Dr. Hobson

Dr. J. E. Hobson, director of the Stanford Research Institute, told a group of Rotarians from Belmont and San Carlos about his work on the Stanford campus at last Friday's luncheon at Bondy's.

The cause and cure of smog was one of the topics he touched on among the numerous projects under way at the institute. He also told of the history and the cost of operating the research organization. Hobson, before he became research director at Stanford, was named the most outstanding young electrical engineer in the United States when he was associated with Westinghouse. He is now a consultant for the government of Mexico on industrial research.

Arthur Farnham, program chairman, who introduced Dr. Hobson, said the speaker gave Rotarians "some inspiring and wonderful mental exercise."

Today Dr. Edward Liston of Palo Alto will give his views on socialized medicine at the Rotarian noon luncheon at Bondy's. Well acquainted with the British "Womb to Tomb" system of medicine, Dr. Liston will discuss the socialized program now being used in the British Isles. Dr. Liston is a native of Great Britain, where he was a practicing physician before he came to Palo Alto 20 years ago.

## Pauline Hanson Dies at Home Here

Miss Pauline Hanson, native of Redwood City and descendant of an early pioneer family, passed away at her home here this week after a year's illness.

Miss Hanson, who had served as assistant secretary and head cashier for the California Pacific Title Insurance Co. until her retirement last May, lived with her sister, Laura, at 45 Hudson St.

She was a granddaughter of the late James Hilton, pioneer resident of the community. Her late parents, Albert and Mary Elizabeth Hanson, also were long-time residents. Her father was associated with the old Tacoma Mill here.

Miss Hanson joined the title company in 1916 and had been employed at the local office since it opened in 1923.

## County Chest Hits Quarter of Goal

San Mateo County Community Chest collections reached the quarter way mark today with a total of $49,243, representing 25.9 per cent of the goal of $189,981, according to general county Chmn. Dennis Hession.

Collections are still being made in many communities," Hession stated, "and final reports will not be in for a week or 10 days. An analysis of the early returns indicates that more contributors are being contacted this year and are giving."

Belmont, under the direction of Mrs. A. S. Alexander, still led the percentage parade with 122.3 or $5,505 collected. Mrs. Benjamin Follett III, Hillsborough chairman, has turned in $13,278, the highest total, for percentage of 32.8. Ray Kidder, San Carlos Chest leader, continued to go over his quota with $9,039 contributed or 106.3 per cent.

## MP Planners Get 2-Block Annexation Plan

Possibility of a request for annexation of a two-block area to the city of Menlo Park was disclosed this week at a Menlo Park Planning Commission meeting.

It came to light as planners decided to protest to the San Mateo County Planning Commission establishment of a rest home on property adjacent to a city residential district.

**Harry L. Kuchins Jr. of 1619 Santa Cruz Ave. voiced the protest of residents of the area against the proposed rest home for elderly people and said that an annexation movement is brewing.**

Mrs. Vera Englund's request for approval of establishment of the rest home on property at 1601 Santa Cruz Ave. leased by her will be heard at 2 p.m. Friday by county planners. The property concerned lies in a two-block "island" area bounded by Menlo, Olive, Santa Cruz, and Lemon Aves. and partially surrounded by Menlo Park territory.

Kuchins said 100 per cent of the residents of the area he has contacted have signed a petition opposing the rest home. He declared the rest home would devalue good residential property, be against the trend of growth in the area concerned, and be out of place near Hillview School, now being built.

Menlo Park planners agreed that the use would not be proper and moved to send a letter to county planners opposing it.

Rezoning of three lots owned by Byron F. Farrington and Mrs. Ida M. McDaniel was recommended after considerable discussion. All are on the southeast side of Middle Ave. near El Camino Real.

One, which adjoins a service station at the corner of Middle Ave. and El Camino Real, was recommended for rezoning to first-class commercial use. Farrington said he wishes to establish a nursery business there.

The other two, adjacent to the first and now occupied by small apartments, were recommended for rezoning to second-class residential.

The commission also received a petition for rezoning of Partridge Ave. on both sides from El Camino Real to University Dr. to second-class residential. It was signed by 45 owners of lots on the street.

OUNCE OF PREVENTION — It looks like these pupils at Central School in Belmont are having trouble, but it's a special drill being conducted by the Belmont Fire Dept. in connection with Fire Prevention Week. The firemen, in order to make the drill as realistic as possible, even manufactured some smoke. Classes were resumed after the youngsters had been impressed of the dangers of fire.

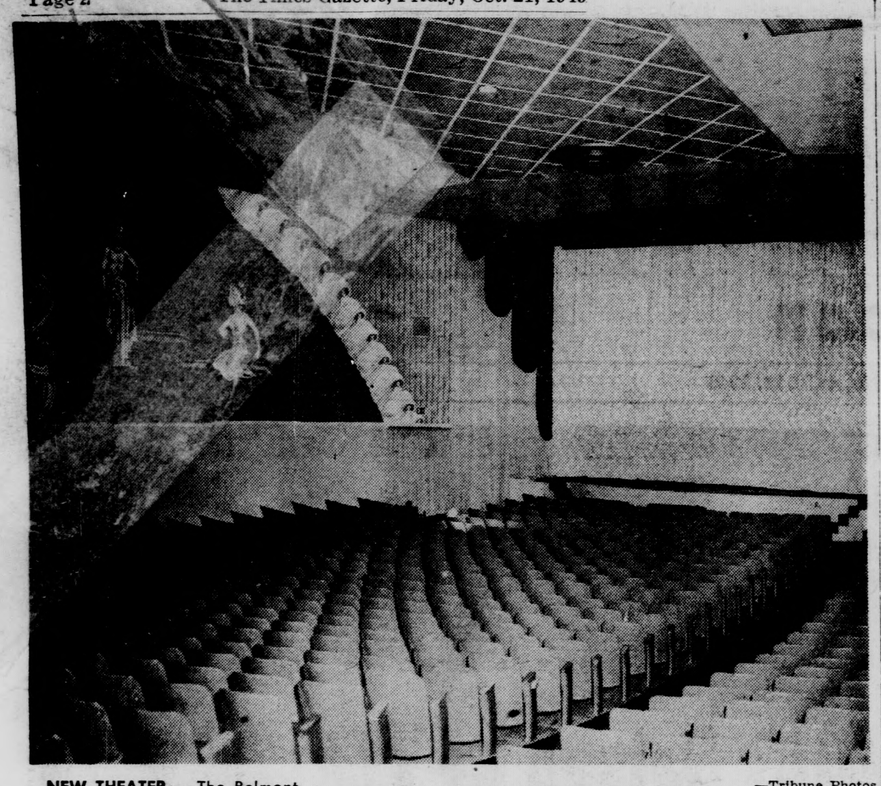
## Indestructible Boy Hit by Truck

They grow 'em tough in San Carlos.

If you don't believe it, just ask 10-year-old John Simmons of 249 Garnet Ave., who was released Saturday after being run over by a light PG&E truck.

The truck, operated by John Russell Place, 48, of 532 Hamilton St., Redwood City, passed over young John's legs after his scooter had coasted out in front of it on St. Francis Way near Emerald Ave.

A witness, Raymond Clark of 2315 St. Francis Way, took Johnny and his mother to the Redwood City Clinic after the mishap, but doctors released him after an examination revealed he had suffered "no serious injury."



—Tribune Photos

**NEW THEATER** — The Belmont Theater opened its doors Wednesday night. The new theater, which is located at El Camino Real and North St. at the north city limits of Belmont, will seat 900 persons. The theater represents an investment of $250,000.

## New Belmont Theater Opens At North City Limits

The Peninsula's newest "flicker palace" — Belmont Theater — opened its doors to patrons for the first time Wednesday night.

Located at the corner of El Camino and North Rd., Belmont, just across the city limits from San Mateo, the theater is owned and operated by Blumenfeld Theaters Inc., San Francisco.

According to Hal D. Neides, superivsor, the theater will seat 900. About 175 of the seats are special "air-flo" rocking chair loge seats. The general seating area is fitted with Encore deluxe opera chairs.

The Belmont Theater was designed by William B. David of San Francisco. William Wolf of San Francisco was the architect, and William Cunningham of San Mateo, the general contractor.

A Malayan motif is carried throughout the theater's decorations. An inlaid wood mural by Artist Gale Santacono of San Francisco depicting a Malayan scene is located behind the candy counter in the lobby. Large bas relief figures adorn the walls in the theater auditorium.

The auditorium is decorated in blue-gray, gold and a soft brick tone. Seats are Kelly green and coral. The glass cloth stage curtain is peach, while the stage drape valance matches the brick tone on the walls.

The latest development in air conditioning equipment has been installed in the Belmont. It completely changes the air inside the theater every three minutes and maintains a constant temperature at all seasons of the year, Neides pointed out.

**Representing a total investment of $250,000, the theater is equipped with the latest sound and projection equipment. Arrangements also have been made to equip the theater for television at such time as general theater television is available to the area.**

The "Flexwood" panelled lobby has an all-glass entrance. Diffused lighting louvers run the entire length of the lobby ceiling.

A mural on the lobby wall, also done by Artist Santacono, portrays a scene which may surprise many Peninsulans when they view it for the first time. It shows a scene near San Bruno with a stage coach and a Union Pacific train racing along beside the Bay.

## R. L. Masters Bound To Superior Court

Rubin L. Masters, 23-year-old carpenter charged with burglarizing the Davies Auto Co., has been bound over to superior court following his preliminary trial held before Police Judge W. H. Thorpe this week.

## SC Student Hit By Hit-Run Auto

A San Carlos eighth grade pupil was confined to his home today with bruises after he was the victim of a hit-run accident on San Carlos Ave. early Tuesday.

The boy, Albert Hagget, 14, of 149 Plymouth Ave., was walking south on San Carlos Ave. near Cordilleras Ave. when the accident occurred about 8 a.m., police said.

The car slowed down briefly after striking the youth, according to school authorities, but drove away without stopping. No description of the car was obtained by the young victim.

Doctors who attended the boy said he will be confined to his home for several days with a bruise of the leg near his knee.

## Belmont Man Dies As Rescue Fails

Despite efforts of a respirator operated by the Belmont Fire Dist., Roy Walter Briel, 53-year-old Belmont resident of 1342 Sixth Ave., died of a heart attack last week.

Mr. Briel was a native of San Francisco. He had been in failing health for the past five years, members of the family said, when stricken last night.

He had been a resident of Burlingame for six years prior to moving to Belmont. Mr. Briel was employed by Foster & Futernick, San Francisco bookbinding firm, for the past 36 years.

He is survived by his widow, Ida, and two sons, George, 12, and Robert, 7, all of Belmont. A brother, Harry Briel, lives in San Francisco.

## SC Gardener Faces Deportation

James Patrick McBride, San Carlos city gardener, was on the job today despite court action within the past 24 hours which makes his stay on the Peninsula highly uncertain.

McBride, who lives at 1814 Chestnut St., has been in city employ for more than a year, the city hall reported. He is regarded as one of the city's finest workmen and an all-around "good guy."

Everywhere, that is, but in Federal Judge Michael J. Roche's courtroom, where he is charged with having entered this country illegally more than 20 years ago.

Judge Roche yesterday turned down a request that McBride be given a writ of habeas corpus.

Atty. Henry W. Schaldach of San Carlos has hopes that his client will be allowed to remain here, though the Immigration Dept. seeks to return McBride to Scotland.

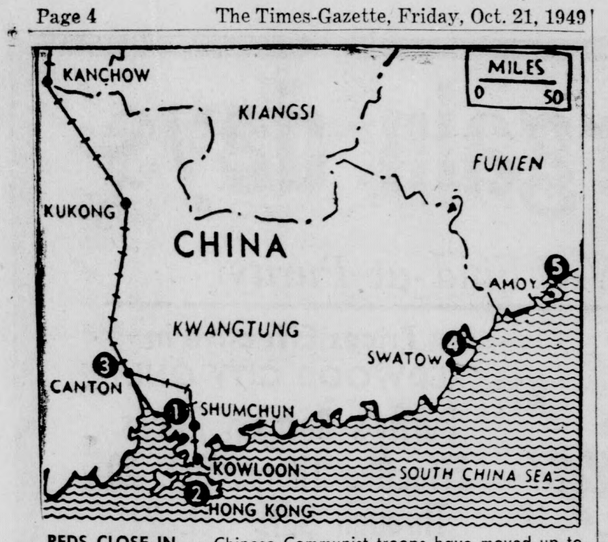
## BOTH PURITY STORES OPEN SUNDAYS AND EVENINGS

ARGUELLO and MARSHALL OR 922 MAIN ST.



**REDS CLOSE IN** — Chinese Communist troops have moved up to Hongkong's northern border at Shumchun (1) and taken up positions facing British troops across a barricaded 30-foot bridge. Shumchun, 18 miles north of downtown Hongkong (2), is a major crossing point on both the highway and rail line leading to Hongkong from Communist-occupied Canton (3). Some 40,000 British troops are in the Hongkong area. Nationalist troops have evacuated Swatow (4) and are fighting fiercly to hold Amoy (5) against Communist amphibious assault.

# Communists Move Toward Splitting China Mainland

HONG KONG (AP)—The Communists stabbed westward today in what may be the death blow to the Nationalists on China's mainland.

Chinese newspapers here reported that two government armies were routed in a Red thrust at Kweilin in the southwest. There was no confirmation.

Red Gen. Lin Piao appeared to be trying to split the shattered Nationalist domain in two with a quick knockout of its last big mainland force—the 200,000-man force of Gen. Pai Chung-hsi.

**Press accounts said the conqueror of Manchuria, Tientsin and Hankow sent veterans of the Reds' fourth field army straight at Pai's home base, Kweilin. The Kwangsi Province city is 250 air miles northwest of Canton.**

The dispatches said two of Pai's armies were blasted along the Kwangsi-Hunan border. The Reds were reported racing along the rail line to Kweilin; and had either taken or bypassed Chuanhsien, only 70 miles to the northeast.

To the south, another Communist force commanded by Gen. Chen Keng was reported slashing westward from the newly won Canton area. These troops were said to be less than 50 miles from the Kwangsi border, Their drive was along the West River.

The push on Kwangsi seemed in itself evidence that the Reds were determined to extend their control quickly over the entire mainland.

Only two days ago, Nationalist quarters at Chungking expected the Communists' westward drive would be aimed at Kweichow, almost defenseless province just north of Kwangsi. They thought the Reds would take it and cut off Pai's armies from Chungking, new Nationalist refugee capital to the northwest.

**Instead, Lin's Reds appeared to be concentrating their power on the cream of the remaining Nationalist forces defending Pai's native province.**

Pai withdrew southwest into Kwangsi from Hunan when the Reds put the heat on Canton. He did it rather than risk Red entrapment by going south to defend Canton.

Press reports said a wholesale evacuation of Kweilin's civilians already was under way. It was signalled, they said, by the transfer of the Kwangsi provincial government to Yungning (Nanning), deep in the southwestern part of the province.

Pai was reported still in Kweilin.

Possession of Kwangsi would put the Communists on the border of Yunnan Province in China's far southwest. They would then be within easy striking distance of Kunming, Yunnan's capital.

There has been much speculation that the Nationalists would try to set up their provincial capital at Kunming if they were chased from Chungking.

Kwangsi itself would put the Communists on the border of French Indo-China.

## SSF School Boy, 8, Hit by Auto

An 8-year-old boy, homeward bound from school in South San Francisco Tuesday suffered a broken leg when struck down by an automobile.

Police say that Jerry Hayes, son of Mrs. Mildred Brown, 518 Park Way, South San Francisco, darted into the path of a car driven by Hugh Lee Frazer, 69, of 771 Commercial St., South San Francisco.

The accident occurred at Baden Ave., West of Magnolia Ave. Frazer reported that he did not know of the accident until his wife, a passenger in the car, called for him to stop.

The boy was taken to South San Francisco Hospital and later transferred to Oak Knoll Navy Hospital, Oakland.

# Supervisors Ask Guards For School

The San Mateo County Board of Supervisors this week voted to ask the State Highway Patrol to install crossing guards at two Willow Rd. school crossings.

The decision to ask for the guards was made by a split vote of the supervisors, 3 to 2, with the dissenting members warning that the action will set a precedent which will bring other school districts in with similar requests.

**By a similar 3-2 vote the board instructed Dist. Atty. Louis B. Dematteis to prepare the proper resolution asking for the highway crossing guards.**

Supervisor Alvin S. Hatch, who with Supervisor Thomas L. Hickey voted against asking for the guards, said that he did not believe that the county road funds should be used for such a purpose.

However, Chmn. Henry W. Edmonds pointed out that if the traffic guards were installed by the sheriff's office, as suggested by Hatch, the cost would be borne to the greatest extent by residents of incorporated areas.

The road fund, paid to the county from the highway users tax fund, is used only to maintain roads in the unincorporated area, Edmonds declared.

The supervisors acted on the request for guards after the district attorney presented a letter from the highway patrol commissioner, Clifford Peterson.

**Peterson stated that the men to be hired would be under state civil service, and would be paid a starting salary of $1.10 an hour. The posts are filled through examinations.**

After the resolution is sent to the CHP's state headquarters, the local division of the CHP will be notified. The resolution also provides for the deducting of the guards' pay from the county's allotment of the gas tax fund.

Hickey said that if the supervisors grant the request of parents and officials of the Ravenswood School Dist., other school districts will ask for the guards.

"If a study is made by the traffic safety commission, and it finds that the guards are needed in other places, I'll go for that, too," Edmonds answered.

"I still believe that it is a local affair, and the people owe it to their children to provide guards themselves," Hatch declared.

Dematteis said that there is no provision in law whereby a school district can allocate funds to pay for crossing guards.

# RC Chamber Gets Okeh On Building

The city council's real estate committee this week gave the Redwood City Chamber of Commerce council approval to build a permanent chamber building on city property at the corner of Jefferson Ave. and Middlefield Rd.

Committee Chmn. H. E. Holmquist said the committee had agreed to grant the council the land and that the building would become city property.

**Plans call for the erection of the building on the southwest corner of the intersection. The building, according to Ned Butler, general manager of the chamber, would have a 40-foot frontage and would be about 60 feet in depth. The 60-foot depth would be in addition to the city's setback provisions for the lot.**

Holmquist declared the building was so designed that it would fit into the "general scheme of things" in regards to architecture. The front rooms would house the general offices of the chamber while the offices in the rear would be open to public meetings.

The site of the building is directly across from the city hall on the city's new parking lot north of the fire department.

The building would be a low, single storied affair, designed so that it would not block the view of traffic at the intersection.

Holmquist said the council's building committee understood the chamber had funds to start erection of the building "within six months." Chamber of Commerce officials, however, made no comment as to when the actual construction would start.

Butler said he had plans on hand for the new building.

The councilmen accepted Holmquist's report after discussion as to what organization would actually have control of the building.

**At this week's meeting the council also offered a resolution calling for bids to begin construction work on the Lenolt Tract. Bids for construction of improvements including sidewalks, curbs and gutters, will be received at the council's Oct. 31 meeting. Councilmen also fixed the minimum wage scale for work on the project after overruling objections to the project.**

Councilmen agreed that work could go ahead at Lenolt in that the objectors to the plan did not constitute more than 50 per cent of the people living in the area. Four objections to the plan were heard.

# RC Man Faces Charge Of Disturbing Peace

San Carlos police this week arrested Vernon William Elsken, 30, of 639 Pine St., Redwood City, on a charge of disturbing the peace. He was in the county jail today with bail set at $250.

Police said Elsken's arrest followed neighbor's complaints in the 500 block of Laurel St. Elsken and his wife, the police reported, were having a family quarrel about 9:10 p.m. when Elsken was taken into custody.

# Rhorabough Fund Urged at 'Y' Meet

A Thom Rhorabough Memorial Fund was proposed by the board of directors of the Sequoia Dist. YMCA at a meeting this week at the First Baptist Church.

Mr. Rhorabough, who died unexpectedly last week, was a former member of the YMCA board and was active in civic affairs here.

Chmn. Wilbur Doxsee appointed a nominating committee comprised of A. H. Sagehorn and Earl Whitaker, members of the board, and James Wood, Walter Truce and Dan Robertson, nonboard members.

Doxsee reappointed Otto Tallent as chairman of the membership committee.

Committeemen reporting were Donald L. Bogie, building; James Thomas, who told of youth work, especially regarding the YMCA Halloween parade and program on Oct. 31; John Waldier, who told of the organization of a new Y's Men's Club, and also about the start of a folk and square dancing program, and "Y" Executive Secy. Kenneth T. Osman, who reported on Community Chest work.
